## NOTHING FEELS LIKE A YAMAHA

When you are on a Yamaha boat, you experience the water from an entirely different perspective. Discover that difficult-to-reach fishing spot. Take a refreshing dip from our patented swim platform. And get closer to everything you love thanks to our spacious interiors and comfortable seating. Of course, our sought-after features and incredibly unique design make the water more accessible and enjoyable for every kind of boater. It's not just a boat, it's an invitation to freedom, connection, inspiration and serenity. It's the most satisfying way to experience the water because as soon as you step on board, you quickly realize that nothing feels like a Yamaha.

## THE YAMAHA ADVANTAGE

**A different take on boating.** Yamaha's internal propulsion system delivers next-level freedom and convenience by maximizing cockpit space, increasing storage, and offering unobstructed access to the water.

**The Yamaha Total Package.** Unlike some of the competition, our most sought-after features come standard, like the Connex<sup>®</sup> touchscreen system, the bimini top, luxury upholstery, premium stereo systems, and a trailer on most boats (trailer excluded from 27FT and 29FT Series).

**It's what's inside that counts.** The legendary Yamaha Marine Engine is where reputation and reliability meet power and performance. No matter what you're looking for, our precision engineering and wide array of engine platforms ensure optimal performance for every kind of boater.

**Feel good about fun.** Yamaha provides a lifetime structural limited warranty on the hull and deck of new Yamaha boats, protecting the original retail owner against significant defects in materials or workmanship for as long as they own the boat. This warranty can be transferred once, within the first 10 years from the original purchase date, to a subsequent owner.

## THE LARGEST, MOST DELUXE YAMAHA BOAT EVER BUILT

Designed to exceed your expectations from bow to stern, the 29FT Series is engineered with a spacious layout and thoughtful extras not found in most jet-powered boats. Enjoy premium upgrades, starting with an easy-to-access private cabin and a plumbed head. Captain with confidence at the feature-rich helm as passengers relax in the comfortable rear lounge seats. Entertain guests thanks to the all-new L-shaped galley or cool off on the integrated swim-up seats. It all culminates in a Yamaha boat experience that redefines both luxury and performance.

## INDUSTRY-LEADING FEATURES FOR A ONE-OF-A-KIND BOATING EXPERIENCE

**Parking with purpose.** Designed to deliver ultimate precision for low-speed docking or handling, DRiVE® features intuitive dual paddle controls that make maneuvering in tight spaces effortless.

DRiVE X® builds on that intuitive functionality, adding precision push-button controls for unmatched maneuverability. DRiVE X enables full 360-degree rotation, as well as forward, reverse, and sideways maneuverability—all with the touch of a button. Meanwhile, Dock Hold maintains the boat's position for stable boarding and loading.

**Take command of your boating experience.** Discover unmatched control with **Yamaha's Helm Master® EX**, an advanced system designed for effortless low-speed maneuvering in our top-tier boats. This intuitive technology features a multi-function joystick that lets you move forward, backward, sideways—even rotate on an axis with ease. Perfect for navigating tight spaces or reaching remote fishing spots, Helm Master EX delivers confidence and precision when it matters most.

**No screen quite like it.** Enhance your boating experience with Connex, Yamaha's award-winning, fully integrated touchscreen control hub that places every critical function at your fingertips. Configure precise acceleration profiles for tow sports or no-wake zones, chart your course with intuitive mapping and waypoint navigation or connect your mobile device via Bluetooth® to create a setlist for your custom-tuned stereo system. For Wake Series models, effortlessly manage ballast levels through the built-in ballast control interface—engineered for perfect wave performance and endless on-water enjoyment.

**Details that make all the difference.** Part of what makes your Yamaha boating experience so unique is the level of thoughtful detail you'll find throughout our expertly crafted interiors. From convenient wireless chargers to our Cool Touch upholstery and signature swim-up seating, there are so many ways that a Yamaha boat elevates your time on the water.

# THE 22FT SERIES

A man with long hair tied back, wearing a black Yamaha baseball cap and sunglasses, is driving a boat. He is wearing a black hoodie and a grey life vest with Yamaha logos. The boat is moving on a body of water, and the sun is low in the sky, creating a warm, golden glow and lens flare. The background shows a distant shoreline with trees.

IT'S THAT  
"WHERE WILL  
THE DAY  
TAKE US?"  
FEELING.

# THE 27FT SERIES

A man and a woman are sitting on a dark blue speedboat with tan leather upholstery. The woman is on the left, wearing a white patterned dress and a black life vest, holding a white cup. The man is on the right, wearing a blue button-down shirt, patterned shorts, and a black life vest, holding a blue cup. Both are wearing sunglasses and smiling. The boat is on a body of water with a forested shoreline in the background.

IT'S THAT  
"LIVING OUR  
BEST LIFE"  
FEELING.
