### LAYOUT CONFIGURATIONS

SWITCH FISH 18 – 170

SWITCH FISH 18 – 230

SWITCH FISH 21 – 230

### FEATURE HIGHLIGHTS

#### Force Kraken Garmin Trolling Motor

A powerful electric trolling motor that is ready for salt and freshwater that operates whisper-quiet and is loaded with standard features such as various autopilot controls, floating remote, ultra high-definition ClearVü and SideVü scanning sonars, seamless wiring with dedicated electrical port at the bow, robust battery and more.

#### Dual Garmin Fish Finders

Enjoy two Garmin fish finders, one located at the console connecting with the in-hull transducer, and one located at the bow connecting with the trolling motor transducer. The screens can be linked together wirelessly. This allows both screens to read both transducer signals. So whether you are fishing up front, or at the rear, you can get the fish finder image you want. You can also control the motor using both screens instead of the handheld remote.

#### Quick-Attach 68 L Livewell and Cooler

Keep your catch or baits alive thanks to an integrated pump constantly feeding 68L of water into the reservoir. This livewell also comes with a timer option that minimizes its power consumption. It can also be used as a cooler and can be quickly and easily installed on the boat using the quick-attach tiles.

#### Trolling Motor Storage

Easily swap your boat's layout from a fishing vessel to a family leisure ready boat with this integrated storage. This storage allows you to securely store your trolling motor, remote, control pedal (available as accessory) and even more fishing gear thanks to the extra space.

#### Enhanced Water Access

The perfectly-integrated four corner doors design provides direct access to the water and makes boarding the watercraft a cinch. Easily get on and off your boat from the swim platform or grab, release a fish or rinse your hands at the bow.

#### Fishing Pedestal Seats

Height-adjustable with 360 degree rotation. They can be easily moved about the boat from one tile to another with their quick-attach system and its four possible positions on each tile. Compatible with LinQ Lite accessories such as cupholder or the multipurpose bag.

#### Quick-Access Rod Storage

Provides an easy and safe solution to store your rods. It accommodates up to four rods and can be locked for added security when leaving the boat.

#### Switch Modular Deck

Innovative tile system that allows you to transform the onboard layout in seconds. Its secure and easy-to-use quick-attach tiles offer unparalleled adaptability.

#### Powerfull ROTAX 1630 ACE Engine

Proven to be reliable, this jet propulsion system offers an outsized fun-factor with a level of maneuverability never seen on a pontoon boat.<sup>1</sup>

## HOW TO MEASURE

For best results, have someone else take measurements. Measure body in swimsuit or undergarments. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

### Chest

Measure under your arms, around the fullest part of your chest.

### Waist

Measure around your waist at the narrowest place.

### Hips

Stand with legs together, measure around the widest part of your hips, ensuring the tape is level.

### Arm Length

Let your arms hang down at your sides in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.

### Inseam

Without shoes, from crotch to the floor.

## What code represents your style?

- 1 Find your size and color.
- 2 The corresponding code is THE CODE you use to complete the part number on your order.
